

Jesse Fisher

Jesse Fisher is an engineer who excels at finding unique solutions to best support his clients' needs. For some, that even means finding solutions to problems they didn't even know they had.

With over 15 years of experience, Jesse has served the Washington D.C and Baltimore markets as a Design Engineer with a primary focus in the institutional, laboratory and commercial sectors. With Bachelor's and Master's Degrees in Architectural engineering from Penn State University, Jesse has a vast background that includes time spent as an adjunct professor at The University of Maryland, Baltimore County.

Jesse is a skilled technical leader, a mentor for his team, and is passionate about what he does. That's what makes him a great presenter. He has presented at several national conferences and seminars for NFMT, AIA, ASHRAE and more."
